#### Our school initiatives are on track to meet or exceed our targets

During 2018, we focused on maximising the benefits of this funding for our students. After reviewing our 2018 *Investing for Success* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our initiatives to ensure that every student succeeds.

Initiatives implemented include:

- The employment of additional teacher aide hours was used to support the implementation of the School Based Reading Program. This saw students supported in needs based and small groupings for explicit reading instruction and also in supporting reading intervention programs with students requiring additional support in reading.
- The Speech/Language Pathologist was employed and used to assess and provide additional programs to our students who were at risk. This additional programming has assisted students to access the curriculum and to ensure effective diagnosis of needs.
